SOFTWARE SOLUTIONS

Business Applications Built Around Your Workflow

From ERP, retail POS, restaurant management, HR & Payroll, document management, physical inventory, e-invoicing, and SAP Business Technology Platform applications to fully customized business solutions, Infonet software empowers organizations with greater efficiency, automation, visibility, and operational excellence.

ENTERPRISE SUITE

FastTrack ERP

All-in-one ERP for sales, procurement, multi-warehouse inventory, receivables, payables, general ledger, cash, manufacturing, document management, OPEX budget and distribution operations.

RETAIL

InfoSoft POS

Fast billing, stock control, counter closing, day-end reconciliation and integrated back-office accounting for retail and wholesale businesses.

PEOPLE

InfoSoft HR

Employee profiles, loans, leave, attendance, overtime, shifts, payroll, ESS, workflows and SAP integration.

F&B

InfoSoft Café

Restaurant and café solution for order tracking, kitchen-to-counter flow, delivery partners, purchases, cash control and ERP integration.

COMPLIANCE

InfoSoft DMS

A secure web-based document management solution for centralized storage, document status control, attachments, expiry monitoring, notifications, history and fast retrieval.

INVENTORY

InfoSoft StockSense

Device-independent physical inventory solution for barcode counting, company-wise controls, item and storage-location management, stock variance analysis and ERP-ready adjustment output.

E-INVOICE

InfoSoft E-Invoice Platform

ZATCA-compliant invoice lifecycle management with ERP synchronization, XML and QR preparation, submission and clearance monitoring, EGS-based access, reporting and audit history.

SAP BTP

InfoSoft Roster Management

SAP BTP roster planning solution for temporary shift assignment, supervisor submission, L1 approval, employee self-service, work-schedule governance and SuccessFactors synchronization.
